

Breast Pump Information

BCBS typically covers breast pumps. A benefit check MUST be performed to confirm eligibility and benefits. Most plans cover a double electric breast pump while some plans will only cover a manual pump. When a benefit check is performed the coverage allowed will be determined. If it is determined they cover 100% of the allowed amount the patient will not incur an out of pocket cost for the Medela Pump In Style with MaxFlow. (pump only billable to insurance)
